

The APart TLG-VOLST is a stereo volume control that can handle up to 2 x 40 watt in 4 Ohm. It can be used with a standard HiFi amplifier to adjust the loudspeaker volume. This volume control is very durable due to the step by step attenuation.

The TLG-VOLST is build on a 3 module bTicino chassis of the Living series.

The unit is supplied with the 3 module frame, without the cover plate.

TECHNICAL SPECIFICATIONS

Type	BTicino Living
Handling power	2 x 40 watt
Impedance	Minimum 2 x 4 Ohm
24V priority	No
Attenuation steps	10
Build-in box	T-3MODINW (for brick walls) T-3MODINP (for hollow walls)
Dimensions (H x W x D)	70 x 115 x 76 mm
Weight	0.22 Kg
colour	Dark grey
